

Introduction / Company Profile

Our company was **established in 2000** with the aim of providing high quality raw materials to the construction industry. Our company later matured into owning mines, crushers and fleets with the sole aim of undertaking a responsibility of servicing complete requirements of any project as desired. We have an annual turnover of **approximately 980 Crores** which include the sales and supply of construction materials and steel.

Our Strengths

Some of our basic strengths which makes us the most preferred vendor for supply of aggregates and sand include:

- Self-owned mines over **5 hectares** of land in Nangal (Chappra, Rajasthan), **5 hectares** in Kundevahal (Navi Mumbai) & **15 hectares** in Kotputli/Patan, Rajasthan which, as of now, is the best source of available boulders.
- Production capacity of 10,000 MT/day (5 million tonnes per annum), the highest commercial production on pan India basis.
- Material crushed using advanced and latest machinery, sieves and equipments which produces far superior material exceeding all aspects of IS specification.
- Integrated fleet of 52 Hywa trailers and attached fleet of more than 200 vehicles.
- Wide experience of single-handedly supplying aggregates to mega projects like DIAI, MIAL, Hindon Airport, Delhi - Meerut Expressway & Mumbai Metro to name a few.
- Delivery from a single source that ensures consistency and quality of all the raw materials that we supply.
- Fixed prices / pre-bid tie-ups helping our clients to fix prices.
- Long term tie-ups backed by PBG.
- Quarry/crushers pre-approved by principle clients like DMRC/PWD/NHAI/AAI etc.
- Advanced fleet management and proof of delivery software to prevent theft.
- L&T-Kemco advanced plant model E7-60 for the production of Manufactured/Engineered sand.
